REDUCED PRICES.—EDWARD SIMMS (late William Cleave) of Wilton road, Pimlico Basin, begs to acquaint Builders and the Trade that he has now on hand, at his Manufactory, the first of its kind ever established, a very large Assortment of Dry and Well-seasoned OAK and DEAL PREPARED FLOORING BOARDS and MATCH BOARDING of all sorts, from ¼ inch to 1½ inch thick, planed to a parallel width and thickness, and at greatly Reduced Prices. Also, Timber, Deals, Oak Planks, Scantlings, Sash Stiles, Mouldings prepared by Machinery, Laths, &c.—Apply at E. SIMMS (late W. Cleave's) Flooring Manufactory, Wilton-road, Pimlico Basin.

FLOORING.—ALFRED ROSLING begs to inform his customers and the trade generally, that he has again very materially REDUCED the PRICES of his DRY FLOOR BOARDS of which he has in stock an extensive assortment. To purchasers of a quantity of Boards prepared Boards A. R. is able to offer a great reduction upon his current prices, to avoid the expense of pitmen away in the drying sheds. Mouldings in great variety and prepared in a very superior manner.—Southwark-bridge Wharf, Bankside, October, 1849.

THOMAS ADAMS, Mahogany and Timber Merchant, Bermondsey New-road, South-wark, near the Presidgrove Arms, is SELLING SEASONED FLOORING at LESS PRICES THAN ANY ADVERTISED; also matched Boards and mouldings prepared from the very best material and in a superior manner. Cut deals and cuttings of every dimension; mahogany, cedar, rosewood, satinwood, elm, beech, ash, &c.; panels, oak, and for backs; wheelwrights' goods. All sawn and prepared goods to be kept in number delivered free of expense. Sawing charged at mill prices. Very extensive drying sheds.

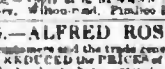
N.B. English timber taken in exchange for foreign.

PRESENT PRICES of SEASONED FLOORING, prepared by improved Machinery. Net cash.

¾ in. yellow, per sq.	20s. 0d.	1 in. deal, per sq.	14s. 0d.
1 " " "	17s. 6d.	1 " " "	11s. 8d.
¼ " " "	14s. 0d.	¼ " " "	10s. 6d.

Within measured after being wrought. Quantities not less than thirty squares delivered within 3 miles free.

CAMOL ARCHIBUTT and Co., Timber Merchants, Sawing and Planing Mills, King's-road, Chelsea.



SAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any size, PLANK, DEALS, and BATTENS, &c., sawn on the most approved principle. Boards, &c., Prepared, Matched, and Grooved, by Muir's Patent Machinery. The Mills have all the advantages of navigation and water-carriage, being connected with the Thames by the Grosvenor Canal. Goods landed from the docks and carted home free of charge.

Address to HENRY SOUTHAM, Saw Mills, Gillingham-street, Pimlico.

N.B. Estimates given for Sawing and Planing.

GENERAL WOOD-CUTTING COMPANY—SAWING, PLANING, AND MOULDING MILLS, Belvedere-road, Lambeth, between the Suspension and Waterloo Bridges. SAWING and PLANING in all their branches executed with the greatest despatch and accuracy, also. A large Stock of Seasoned and beautifully Worked MOULDINGS, consisting of upwards of 100 different patterns kept constantly on hand; also an extensive assortment of dry prepared FLOORING BOARDS, of all qualities and at reasonable rates.

PHILLIPS, ALLCARD, and CO.'S IMPERIAL DEAL SAW MILLS, WENLOCK-ROAD CITY-ROAD, beg to invite the attention of Builders, Carpenters and the trade, to their well selected stock, consisting of a large assortment of TIMBER, DEALS, PLANKS, and BATTENS, of every description, and thoroughly seasoned. They also have constantly on hand, and ready for immediate use, white and yellow prepared FLOORING BOARDS of all thicknesses, and matched lining cut and planed to a parallel breadth and thickness. And they are enabled to offer all their goods at very moderate prices.

JORDAN'S PATENT MACHINE CARVING and MOULDING WORKS for WOOD and STONE, Belvedere-road, Lambeth, and 154, Strand.—TAYLOR, WILLIAMS, and JORDAN beg to call the attention of the building community to a new feature of their establishment, and, at the same time, to thank their numerous patrons and friends for the many liberal support they have lately experienced, which, they assure them and the public, it will be their constant endeavour to deserve, by giving their customers an increased share of the advantages arising from the constant improvements in the machinery which they have just succeeded in applying to the production of the most intricate carving in Caen and other freestone, and in statuary marble.

T., W., and J. particularly solicit the attention of architects and builders to the fact that, by the use of this machinery, a very large saving both of time and money, is effected.—as great, indeed, that in many cases they can deliver a well-finished article in Caen stone for less money than it can be obtained in cement, while their wood-carving will, in some cases be found to come into close competition with the best kinds of composition ornament.—For prices and estimates apply at 154, Strand.

TESTIMONIAL FROM CHARLES BARRY, ESQ.

"Westminster, May 16th, 1849.

"Gentlemen,—In reply to your letter requesting my opinion of your recent Carving Machinery, I have much pleasure in stating, from an experience of more than two years, in its application to the production of the wood carvings of the House of Peers, and other apartments of the New Palace, at Westminster, that I am enabled to make the most favourable report concerning it, and to add that it has more than justified the favourable terms in which I recommended it in 1845 to her Majesty's Commissioners of Woods and Works for adoption.—I remain, Gentlemen, yours faithfully,

"CHARLES BARRY."

Messrs. Taylor, Williams and Jordan."

PATENT HANDRAILS WITHOUT HEADING JOINTS, now so well known and justly appreciated, having patronised by the most eminent Architects.—J. MELVILLE informs Architects, Builders, and the Trade in general, that having recently erected an improved steam apparatus, which, by causing a saving of fuel, and otherwise giving greater facility to the execution of the work, he is enabled to make a reduction of 20 per cent. on the former prices. Prices and patterns forwarded to any part of the country on a reference being given; and Architects or Builders waited on in London.—6, John street, Fitzroy square, London.

ZINC, from the VIEILLE MONTAGNE MINING COMPANY, is the purest known, free from alloy of iron, lead, or sulphur. It is supplied in spelter for brass founders, &c., and in sheets for ship sheathing and roofings of all kinds and sizes of all dimensions. It may be had at the following Agencies, at which the lowest prices are fixed:—

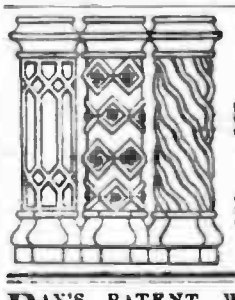
London—Messrs. Charles Dresser and Co.; Mr. Charles Jack Mr. William Sharrow
Birmingham—Mr. John Barwell.
Liverpool—Messrs. F. Zwilchenbart and Co.
Manchester—Messrs. Richard Johnson and Brother.
Leeds—Messrs. J. G. and T. Heaps.
Hull—Messrs. J. Parker and Sons.
Bowness-upon-Tyne—Mr. Benjamin Plummer.
Leith—Messrs. Robert Anderson and Co.
Glasgow—Messrs. A. G. Kidston and Co.
Bristol—Messrs. Morgan, Carpenter and Co.
Plymouth—Messrs. Lyscombe, Driscoll, and Co.
Southampton—Mr. W. J. Lobgrove.
Yarmouth—Messrs. John Shelley and Co.

Zinc from 20 to 24 oz. per square foot is generally used for roofing, which costs at least one-third cheaper than slate coverings; and the ship sheathing, which lasts from five to six years, costs two-thirds cheaper than copper or rolled metal. And if the above coverings are made of the Vieille Montagne Zinc, and under the superintendence of Mr. FREDERICK BROWN, the surveyor of the Company (for which no charge whatever is made), a guarantee will be given of its durability. For further particulars and prices, apply to Mr. H. P. SCHOLL, General Agent for England, at the Company's Offices, No. 18, Manchester buildings, Westminster-bridge, London.

PAPIER MACHÉ and CARTON PIERRE ENRICHMENTS MANUFACTORY, 41 and 39, Rathbone place.—GEORGE JACKSON and SONS beg the attention of Architects, Builders, Decorators, and others, to their large assortment of ENRICHMENTS in every style, executed in the highest class of art.

The facilities and repeated enlargement of means enable GEORGE JACKSON and SONS to announce the execution of works of the above descriptions in these extraordinary materials at a cost considerably below any known method, while for quality, relief, and finish, they deliver them even as they stand enrivalled.

Just published—a large Quarto Work of their ENRICHMENTS with dimensions for reference and price.



ELIZABETHAN CHIMNEY SHAFTS.

AUSTIN and SHELEY beg to remind the trade that they have the most extensive stock of

ELIZABETHAN AND GOTHIC CHIMNEY-TOPS.

and they shall be happy to forward a pattern sheet to any one desiring it.

NEW-ROAD, REGENT'S-PARK.

DAY'S PATENT WIND-GUARD.—Thousands of smoky chimneys have been cured by simply applying at the top of the chimney this unequalled, useful, and well tested invention.—To be had as usual of the manufacturer and sole proprietor, CHAS. W. WHITE, at the manufactory for the same, Patent Ventilating Works, Commercial-road, Pimlico; and of Messrs. GUNNARS, 77, Queen-street, Cheapside.

WM. OATLEY & SON'S (REGISTERED) IMPROVED SELF-ACTING VENTILATOR, for carrying off all impure air, whether arising from gas or otherwise; therefore adapted for courts of justice or other large buildings as well as for private dwellings.—For particulars, apply to OATLEY and SON, House Decorators, &c., 25, Aldermanbury, City.

GREEN'S REGISTERED WIND-GUARD.

By this simple contrivance smoke in rooms is thoroughly prevented in all winds. It can be fixed securely on the chimney-pot by any person in a few minutes: it makes no noise, and can be cleaned out by the common sweeping machine.

May be had at 5, Tilney-street, Euston-square, London (back of the Church); free, from 6s. to 8s. 6d.

For the size take the outside diameter of the top of the pot.

N.B. Agents wanted.

SMOKY CHIMNEYS.— "NO CURE NO PAY."

J. WILSON, Bricklayer and Surveyor of Chimneys, 1, Vale place, Hammersmith, begs to inform architects, surveyors, builders, and others, that he can guarantee a perfect cure of chimneys from smoking into rooms, and on the equitable terms of "No cure no pay." References and testimonials of the highest respectability can be given.

N.B. WILSON & Co.'s PATENT CHIMNEY POTS for the Cure of Smoky Chimneys, which have been extensively tested for the last four years, can be forwarded to any part of the Kingdom on receipt of a Post office order. Prices and prospectuses by return of post. Licenses granted to manufacturers.

MANUFACTORY—VALE-PLACE, HAMMERSMITH, MIDDLESEX.

DR. ARNOTT'S VENTILATING CHIMNEY VALVE.

With internal movement, and all the latest improvements.

Constructed for the ventilation of apartments generally.

REDUCED LIST OF PRICES SUBJECT TO THE TRADE DISCOUNT.

	First size, 11 by 8	Second size, 16 by 9
Plain Iron Valve	6 0	9 6
Bronzed and Varnished	7 0	10 6
Japanned, white with Gold lines	11 6	16 6
Ditto with Trellis work	17 6	25 0
Brass Front, lacqd. or bronzed	13 6	19 6
Ditto with Trellis work	19 0	27 0

Ventilators of any description made to order.

Manufactured by HART and SONS, 54, 55, 56, Welch-street Strand, London.—Post-office orders payable at 180, Strand.

IMPROVED SELF-ACTING CHIMNEY VENTILATORS.

FOR CARRYING OFF HEATED AND IMPURE AIR from drawing rooms, sitting-rooms, bed-rooms, nurseries, offices, &c. &c. from 24 6d each.—HART and PUTTY, Manufacturers and Ironmongers, 67, York-street, Westminster, London.

Stoves, ranges, rain-water pipes, gutters, and builders' ironmongery, as low as any house in London. Delivered free within 5 miles

GUILDFORD GREY STONE and WHITE LIME WORKS—JOHN DAVIS and SON beg respectfully to announce that they have made a reduction in the prices of their limes, as stated below:—

LIME AT THE KILNS.—Grey Stone Lime, from 7d. per bushel, to 6½d; White Building ditto, from 6d. per bushel, to 5½d.; Mason's ditto, from 4½d. to 4d.; Lime ashes from 3½d. to 3d. The above will be delivered for a moderate addition in price to any part of the country according to the distance.

JOHN DAVIS and SON beg to inform Builders, Bricklayers, Masons, Plasterers, and the public in general, that their Limes are of superior and economical materials, being perfectly free from waste or core, and in the opinion of practical men are considered to be superior to any this country produces. From their limes having been used for a great number of years past in the construction of many public buildings in London and other places, their strength and durability are sufficiently tested. JOHN DAVIS and SON'S extensive trade in the above articles, and the advantages they possess over other works of this description, having good roads and conveyance by water and railroads, they are enabled to offer the above on such reasonable terms.

TO CONSUMERS of PLASTER of PARIS. —The Advertiser is in a position to supply the above article in quantity at extremely low prices.—Particulars may be had on application.—Address, W. B. WILKINSON, Prudhoe-street, Newcastle on Tyne.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through long detention at sea, has often proved stale and unfit for use on its arrival in London. By the arrangement now made, the Cement will be manufactured in London, and thus proceeded to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panels, and for the [illegible] of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where a partition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement but has the advantage over that material of wholly resisting frost. When used as a stucco it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and in proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the finest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufacturers—J. B. WHITE and SONS, Millbank-street, Westminster, and 28, Basil-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to Nos. 280, page 491; and also Nos. 284 and 285, pages 543 and 591 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water. It is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, corrode, or turn green; nor is it affected by any atmospheric influence whatever, the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 26, Hanover-street, Liverpool.

MARTIN'S PATENT
FIRE-PROOF AND ORNAMENTAL CEMENT,
APPLICABLE FOR
ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public so many years, and obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. Messrs. STEVENS and SON however feel called upon to observe, that from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 181 per cent. in material, full 7 per cent. less in price, with an additional saving in labour of 50 per cent., the adhering solidity for working, being less than one-tenth of the time of other cements of a similar nature, therefore worked with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT.; its advantages therefore cannot admit of doubt.

Specimens, showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement in any quantity obtained of Messrs. STEVENS and SON, at their Plaster and Cement Works, 188, Drury-lane, London.—Manufactory, Derwent Mill, Derby.

THE PARIAN CEMENT, for INTERNAL STUCCO, which you supplied at Messrs. J. & R. MORLEY'S warehouse and dwelling in Wood-street, Cheapside, in the City, has been used throughout the premises, in every story, altogether about ten thousand yards superficial, chiefly upon recently built walls, and a small portion upon timber partitions, and that with the most perfect and satisfactory result. I feel it also necessary to observe that the plasterer's work was almost incredibly well executed on both the above situations, thereby enabling me to have the buildings complete in the shortest possible time, both for business and for the occupation of the establishment. I am, therefore, of opinion, that the use of this new material is a most valuable feature to building operations, and I fully justified that which I was given to understand, viz., that it was an excellent fluviary material. I think it right to mention that I am at the present time having a great extent of similar work executed at another range of buildings, where time and the quality of the work are of the utmost importance.

Signed) JNO WALLEN, Architect, London.

To Messrs Chas Prandi and Sons, Manufacturers, Nine Elms

GREAVES'S BLUE LIAS LIME, WARWICKSHIRE CEMENT, BLUE SAWN FLAGGING STONE, and MARBLE WORKS, WARWICK.

AGENTS:
Messrs. Rusty and Verrey, 8 South Wharf Paddington.
Messrs. Gladdish's, Pellar-place, Lambeth.
Mr. J. Thompson, Bank King-street, Manchester.
Mr. T. Wylie, 1, Royal Bank buildings, Liverpool.
Mr. E. Harrison, Lower-all-street, Chester.
Mr. T. E. Hall, 10, Pargate, Sheffield.
Mr. J. Bracehill, Bartley-street, Birmingham.

And can be delivered by the Proprietor's own boats to any part of the kingdom.

EMERSON'S PATENT LIQUID CEMENT is ready for use, is simple in its application and only ONE-EIGHTH the cost of oil paint; for beauty it is pre-eminent over all other materials used on the fronts of houses, giving the exact appearance of FINE CUT STONE; can be used at once on fresh Roman cement or other plastering; is particularly calculated for country houses, villas, or gate entrances that have become soiled or dingy, which can be beautified in any weather, at a trifling cost.—Sold in casks of 1, 2, and 3 cwt., at 8s., 16s., and 32s. each.—G. BELL and Co., 16, Basing lane, Cheapside.

EVANS'S MINERAL OXIDE PAINTS. Offices, 9 Philpot-lane, London.

Stone or drab, oxide of iron	25s. per cwt.
Black, oxide of lead	28s. "
Dark brown, oxide of iron	28s. "

Packages of 1 cwt. and upwards are not charged.

These preparations of the Mineral Oxide Paints will be found more durable, and at the same time more economical, than any other paints. They are warranted to protect the surfaces to which they may be applied against rust, dry rot, and decay. They are proof against atmospheric action, gases, and salt water. Directions for use are affixed to every package.

PATENT WHITE ZINC PAINT.—J. B. VAUGHAN respectfully announces to the Gentry, Architects, and Builders, that he has undertaken the Manufacture of the above article; its superiority to all poisonous pigments has been fully proved on the continent, to the exclusion of white lead in the French Public Works. For internal decorations its brilliancy is unparalleled; it is not affected by sulphuretted hydrogen or any impure atmosphere. For metals its anti-corrosiveness is unequalled, particularly iron, which it renders equal to galvanising. J. B. V. having for many years manufactured his paints from metallic oxides, which have gained him a no little celebrity for their quality, earnestly recommends its use, as, in point of cheapness, and body, it is infinitely preferable, being, a brilliant and permanent white, infinitely superior, and more economical than the white lead. Samples can be forwarded to any part of the country. As a specimen of its beauty, the Royal Exchange pavement is white, bear a label signed by myself, J. B. VAUGHAN, Steam Colour and Varnish Works, 21, Stone's-end, Borough; and Montague-street, Southwark, London.
